COURSE PRACTICE WORKSHEET

Accessibility review checklist

Work through these four exercises, then compare your result with the lesson examples.

1. Inspect structure

Check the main landmark and heading order. Confirm that links navigate and buttons perform actions.

2. Follow the keyboard

Use Tab, Shift+Tab, Enter and Escape where appropriate. Check visible focus and its return after closing a dialog.

3. Review form feedback

Check persistent labels, instructions and text errors. Submit invalid input, correct it and confirm your draft remains.

4. Stress readability

Enlarge text and check contrast. Combine automated checks with keyboard and screen-reader review; record limitations honestly.
