COURSE PRACTICE WORKSHEET

Landing page design review

Work through these four exercises, then compare your result with the lesson examples.

1. Define the task

Name your audience and write the one action the page should support. Sketch the main heading and supporting sentence.

2. Build hierarchy

Mark the first, second and third things a reader should notice. Remove one competing highlight.

3. Review typography

Read a paragraph at normal and enlarged text sizes. Check line spacing, wrapping and button labels.

4. Check color and spacing

Check text contrast and review the page in grayscale. Use labels as well as status colors. Record two concrete improvements.
